Elena Georgiou

Profile

I am friendly, hardworking, reliable and have a personal passion for Computers and Technology. I have recently passed the Microsoft MTA 98-361 Software Development Fundamentals C# exam through self-study and following this I was selected to attend the Generation Tech Talent Accelerator 6 week coding boot camp where I received the opportunity to work in different teams, learn more in depth coding skills and completed two projects. I am keen to continue learning new skills whilst seeking a job opportunity in industry as a Software Developer/Engineer. I am really enjoying innovating and designing solutions using code and work hard to perfect the outcome of my work.

I take pride that in my previous career my clients were always happy with my solutions for them and continually returned. I feel I am a quick learner and my enthusiasm and desire to learn new skills and techniques from those around me I would say are my best attributes.

With over 5 years experience as a Hair Stylist in fast paced salons, hairdressing has enhanced my communication skills and ability to stay calm in stressful situations. Client satisfaction is key to me, always ensuring I have a mutual understanding with my clients of what they desire and what to expect from me. I hope to make use of some of these skills as I embark on my future career in Software Development and Engineering.

Education

**Sep 28th 2020 –
Nov 7th 2020**   **Generation Tech Talent Accelerator bootcamp**
